DAIRY SCHOOL OPENS MONDAY

"Use of Concrete On Dairy Farm"
First Subject.

Considerable enthusiasm is being shown by farmers and their sons in registering for the evening courses to be given by the Department of Vocational Agriculture at the local high school. Over 75 men and boys have already enrolled according to C. L. Kuttel, director of the school.

Prof. Steigerwalt, of The Portland Cement Association, of Chicago, will be in charge of the first evening, Monday, Jan. 10th, at 7:30 at the high school auditorium. He will show how Portland Cement is made in the mills through motion pictures. The various uses of cement on the farm will be gone into and illustrated by lantern slides. Several laboratory tests and demonstrations will also be given during the evening by Prof. Steigerwalt.

This meeting should be of interest to construction men as well as to farmers and they are urged to attend the meeting.

Another instructor, Leon Robbins, Livestock Editor of the Wisconsin Agriculturist has been signed up by Mr. Kuttel. He is one man all farmers and boys should hear. Once you hear him you will never forget the message he left with you.

During the past 15 years the use of dairy products has increased 36 percent, according to Dr. Nevens, of the University of Illinois. With this great increase, prospects are bright for more profitable dairying in the very near future for those who will get into the dairy business or stay with it, for as the population increases the use of dairy products will increase. Young men and old men are enrolling in the local evening school. According to C. L. Kuttel, there is no age limit. Come, we have plenty of room and the fee is only \$1.00 for the whole course of ten evenings, each Monday for 10 weeks.

ANTIOCH MERCHANTS SWAT OLD HIGH COST

Page Ads Carry Announcements of
January Bargains.

If old Santa Claus had not been in such a hurry to return to his northern home and had remained in Antioch a few days longer he might have carried with him a considerable stock of very useful and staple merchandise bought at greatly reduced prices from local merchants and could have very materially reduced his expenses for next Christmas.

Be that as it may, Old High Cost is being dealt a staggering blow by Antioch merchants who have announced January clearance sales that mean great savings to thrifty buyers. Hillebrand and Shultz, general merchants, and Otto S. Klass and S. M. Wallace, clothing and furnishing dealers, have page advertisements in this issue of the News to announce their offerings. The special sale at both clothing stores will start Saturday of this week, and the special pipe offerings on general merchandise at the Hillebrand and Shultz store are to start Monday, Jan. 10.

Hamlin Motion Is Overruled

Because of the congested court docket, the motion for a new trial in behalf of Chief Bernard Hamlin, of Lake Villa, that was to have come up in the circuit court at Waukegan, Monday, was continued.

Hamlin was found guilty of assault after the moir club investigation with witnesses showing that he fired at Arthur Schlauder, Downers Grove man, and that after a four mile chase he caught and beat the man.

Hamlin, it is said, is seeking reinstatement as Lake Villa's chief of police.

Reports today are to the effect that Judge Claire C. Edwards yesterday overruled the motion for a new trial and issued an order for Hamlin's removal from office.

For Forty Years a California Visitor

Chas. W. Clingman Enjoying Annual
Sojourn in Western State.

The following interesting letter from Mr. Chas. W. Clingman tells how the Channel Lake man is enjoying his annual visit to California where he has spent his winters for nearly half a century, which is probably a record in point of consecutive years for wintering in the western state.

Antioch News,
Antioch, Ill.
Gentlemen:

Here it is Dec. 31, 1926, the last day of the year and as I write the windows are all open in my house and it is just like a June day. I have been coming here since 1885 and the last few months have been cooler than any year I can recall. The thermometer early mornings some day has been as low as 46 degrees, and the middle of the day 60 degrees, but most days and nights are perfect.

Mr. and Mrs. Frank Hardcastle, of Channel Lake, are here with their daughter, Mrs. Van Ryser. I have mailed you a mid-winter number of the Los Angeles Times which I hope you receive and show to my fellow residents of Antioch and the Lake region and I also wish you acknowledge receipt of the paper. I will be back about the first of June to spend the Summer at Channel Lake where I have been for about 39 years.

Very truly yours,
Chas. W. Clingman,
5470 3-4 G Sunset Boulevard,
Hollywood, Calif.

TWO HARD GAMES FOR LOCAL HIGH TEAM THIS WEEK

On Friday night the locals travel to Wauconda for their first game after the holiday spree and they will run up against a small but fast team from the Wauconda high school.

Palatine, one of the strongest teams in the Conference, had a hard time defeating Wauconda by the score of 8 to 7 so the locals will not have a set up.

The second team plays at Allendale on Friday night and those who do not go to Wauconda can see a good game at the Allendale Farm.

On Saturday night Barrington comes to Antioch for the first home game this season and there should be a large turn-out for these games, as Barrington will bring two strong teams to meet the locals.

Barrington lost a close game to Libertyville and won from Warren before the holidays and they will be battling hard for another win Saturday night.

"HAPPY NEW YEAR," SEZ HE

A gentleman who had seen about the whole show in this hard-boiled world, wrote the following letter to his friend to wish him a Happy New Year.

Thirty Years Ago, We Remember.

Eggs were 2 dozen for 25 cents; butter 10 cents a pound; milk was 5 cents a quart; the butcher gave away liver and treated the kids with hologna; the hired girl received two dollars a week and did the washing. Women did not powder and paint (in public), smoke, vote, play poker, or shake the shimmy.

Men wore whiskers and boots, chewed tobacco, spit on the side walk and cussed. Beer was 6 cents and the lunch was free. Everybody worked 10 hours a day except saloon keepers, who worked 26. No tips were given to waiters and the hat-check grafter was unknown. A kerosene hanging lamp and a stereoscope in the parlor were luxuries.

No one was ever operated on for appendicitis or bought glands. Microbes were unheard of; folks lived to a good old age and every year walked miles to wish their friends a Merry Christmas.

TODAY, you know—Everybody rides in automobiles or flies; plays golf, shoot craps, plays the piano with their feet; go to the movies; nightly, smoke cigarettes; drink Rukus Juice, blame the H.C.L. on their neighbors, never go to bed the same day they get up, and think they are having a H— of a time.

These are the days of suffragette, profiteering, the rent hogs, excess taxes and prohibition. If you think life is worth living, I wish you A Happy New Year.

FORM PLANS TO AID P. T. A.

Vanishing Parties to Add to Funds
of Parent-Teachers' Association.

A. fund, and each of the five is in turn to invite four ladies who will bring 25c and in their turn entertain three ladies who will bring 25c and entertain two ladies who will pay the fee and entertain one who will pay the fee. According to the committee's plans some very enjoyable times are in store for all who take part and the whole program is to be one of entertainment and profit.

Now is the Time to Start Using FUL-O-PEP EGG MASH

If you want to keep your hens laying through the months when egg prices are higher, right now is the time to start using Ful-O-Pep Egg Mash. Your pullets need this great feed to enable them to produce big, strong-shelled eggs and your old hens need it to restore their vigor after the molting period and enable them to lay steadily.

At this time, your birds are gathering the strength and stamina that will carry them until Spring. If you give them Ful-O-Pep Egg Mash now, and continue feeding it according to the Ful-O-Pep method, your flock will work with the same vigor they display in Spring and Summer.

For it is a fact that Ful-O-Pep Egg Mash is a complete feed. It supplies, in correct proportion, exactly the things a hen requires in order to do her best work. If you will start using Ful-O-Pep Egg Mash now you will get more eggs, and better eggs, at the time of year when extra eggs are in greatest demand. An extra dozen eggs now gives you more cash than at almost any other season.

When you buy Ful-O-Pep Egg Mash you get a fresh, clean, pure feed in which there is no waste. Everything in it "hits the spot," for this is the famous egg mash that contains Cod Liver Meal—the ingredient that helps the bird to get all the good out of her feed. The Cod Liver Meal keeps your hens "ful-o-pep," in fine condition, and working on schedule the year round.

Now is the time of year to get the most profitable results. Not only will you get more eggs, and better eggs, but the chicks you hatch next Spring will be bigger and stronger because eggs produced with Ful-O-Pep Egg Mash hatch better broods.

Write today for your free copy of the Ful-O-Pep Poultry Book. It contains valuable "tips" on how to obtain greater profits from less feed. Address

The LAMPS You Use Should "Fit" Your Lighting Circuit

THE question of "fit" in lamps is important. To insure 100% lighting value for your money, the lamp must be designed for the same voltage as the lighting circuit in your home.

For example, a lamp only half strong enough for your circuit, will burn out in forty minutes. A lamp twice as strong as your circuit requires might last many years but would give you only a fourth of the light you should have.

Special Note:

The recent reduction in electric rates and the use of efficient lamps permit you to enjoy better lighting without increasing your lighting budget.

The "Lamp Exchange Service" of this Company is maintained to furnish tested high-efficiency lamps, so that its customers may obtain the full benefit of your electric service.

A lamp display in our store shows conveniently the many sizes, shapes and colors available for your use. Call in and see it.

WISCONSIN STOCK AND DAIRY FARM

160 acres in the western part of Racine county in the lake district, there being several lakes within a few miles of the property and in a section of the county that is fertile and was originally settled by thrifty Germans and always has been good producing land.

The farm lays 30 miles southwest of Milwaukee near the town of Watertown. There is a concrete road running from Milwaukee to Watertown, and a good gravel road from Watertown out to the farm. There is also a good concrete road from Watertown to Racine and also a concrete road from Watertown to Burlington, 7 miles away. The electric line from Milwaukee to Burlington runs through Watertown.

Buildings: A 6 room farm house with stone foundation and basement. There is a cement sidewalk from the house out to the road and the house sits in a very pretty location in the midst of large shade trees and an old orchard. There is a few acres of land on that side of the road where the house is and the farm proper is on the other side of the road, also the barns and out buildings are on the other side of the road.

There is a basement cow barn with cement floor and large hay mow above, stave silo about 90 tons, cement drinking tank in the cow yard, water is piped from the wind mill and pump which is located up by the house. There is a hog house, separate horse barn, granary, and machine shed. All buildings recently newly painted and repaired and now in good condition.

Soil: The country is generally rolling and the soil is especially adapted to alfalfa and this entire farm is alfalfa land with the exception of some that may be low to farm without proper drainage. It is good corn land and good land for small grain. While it is rolling enough for good drainage it is not hilly.

The nationality of the neighbors are American and Germans and a few other nationality here and there. They are all good neighbors and good farmers.

The Road

EVERY one was glad when the new section of the road was built. All realized that personal visits could be made more easily, that trade would be brisker, that matters of general public interest would be carried on with more efficiency and dispatch.

The telephone road, that already enables every one to travel so easily, so cheaply and so far, is constantly being lengthened. Each year over 800,000 telephones are added to the Bell System. Every subscriber shares in the increased value given to telephone service by this extension which hourly is enlarging the scope of every one's activities by permitting an ever broadening interchange of ideas.

DON'T MISS
an opportunity to get some "BARGAINS IN DUROC BRED SOWS AND GILTS" on

TUESDAY, FEBRUARY 1st, 1927

This is sure to be the most sensational live stock sale ever held in the country, because although sows will be sold in the usual way to the highest bidder, no bid over \$250.00 will be accepted. As the offering will be very large, the plan will guarantee every breeder an opportunity to buy a sow or gilt bred to the greatest grand champion breeding boar in the country today, at a reasonable price.

Last year breeders bid five, six, seven and even as high as eight hundred and thirty dollars on a single offering, and the offering this year will be far better than that of last year.

I have a large herd—more than I can carry through farrowing, and this year I am ambitious for volume of sales rather than high prices. Catalogs on request, with full particulars.

St. Ignatius' Church Notes

Episcopal
This will be the first Sunday in the Bishop's Crusade the great National Movement of tremendous spiritual importance in the Church thru 1927. It aims to present in every way possible thru 1927 the Living Power of Christ to men and the true meaning of the Gospel of good news. The sermons for the next seven Sundays will concern themselves with the varied Sevenfold Aim of the Crusade. On Sunday at the local church thruout the year Prince, of Lake Forest, will lead a Parish Meeting on the subject of the Crusade. On Sunday evening, Jan. 30th, the choir of Christ Church Waukegan will sing an Oratorio and the Rev. Fr. Ganster will preach on the joys of the Crusade. It is hoped that every one interested in the

Church will try and partake of the elaborate program that will continue at the local church thruout the year. It is well to begin early.

The beautiful prayer of the Crusade is worth keeping.

Almighty God, Whose Son Jesus Christ came to cast fire upon the earth, grant that by the prayers of Thy faithful people a fire of burning zeal may be kindled and pass from heart to heart, that the light of Thy Church may shine forth bright and clear, thru the same Thy Son Jesus Christ our Lord.

Methodist Notes

The spirit of expectancy which prevails Sunday evening in the Methodist Episcopal Church was evidenced last Sunday by those present to witness the Candle Light Service ushering in the new year. Twelve young folks representing the twelve months in the year were presented at the altar of the church, each holding a candle which was lighted at the tall candle representing the light of the world. As each came forward a charge was given and responsive answers heard from the months. A most impressive service with lighted candles burning as the year marched through the church.

Next Sunday evening another

agreeable surprise awaits those who attend. The pastor Rev. Kahl does not say as to what it might be but promises all who attend a most pleasant evening. This part of the program does not in anyway lessen the spirit of worship but rather makes it more attractive. The sermon will continue to hold first place.

Morning service Sunday.
The Holy Communion will be ministered Sunday morning following the sermon. This is the central point in the Christian religion and every good Christian will want to partake of this spiritual feast as it symbolizes the fellowship we have with our Lord, the Christ.

BEAUTIFUL CHEVROLET

In the past two years Chevrolet has achieved an almost unheard of popularity. People everywhere are talking about Chevrolet. More and more they are learning that Chevrolet offers them more for their dollar than they can buy in any other motor car. Chevrolet's tremendous progress has been marked by the smashing of selling record after selling record and now Chevrolet insures a continuation of this progress by the introduction of the most beautiful Chevrolet in Chevrolet history. Chevrolet cars have been constantly reduced. In achieving such

enormous volume production Chevrolet has been able to offer greater value at reduced prices and obtain still greater success. This new line of Chevrolet cars is unusual. You cannot fail to be impressed by the remarkable beauty, smartness and distinction. They are outstanding in quality construction, dependability, riding comfort and ease of handling. A host of improvements add to their mechanical superiority and economy of operation. The announcement of these new models at such remarkable low prices is the signal of immediate opportunity for Chevrolet dealers, and salesmen everywhere. Backed by a line of models of such exceptional value. Backed by the stability of the great Chevrolet Motor Company and General Motors Corporation.

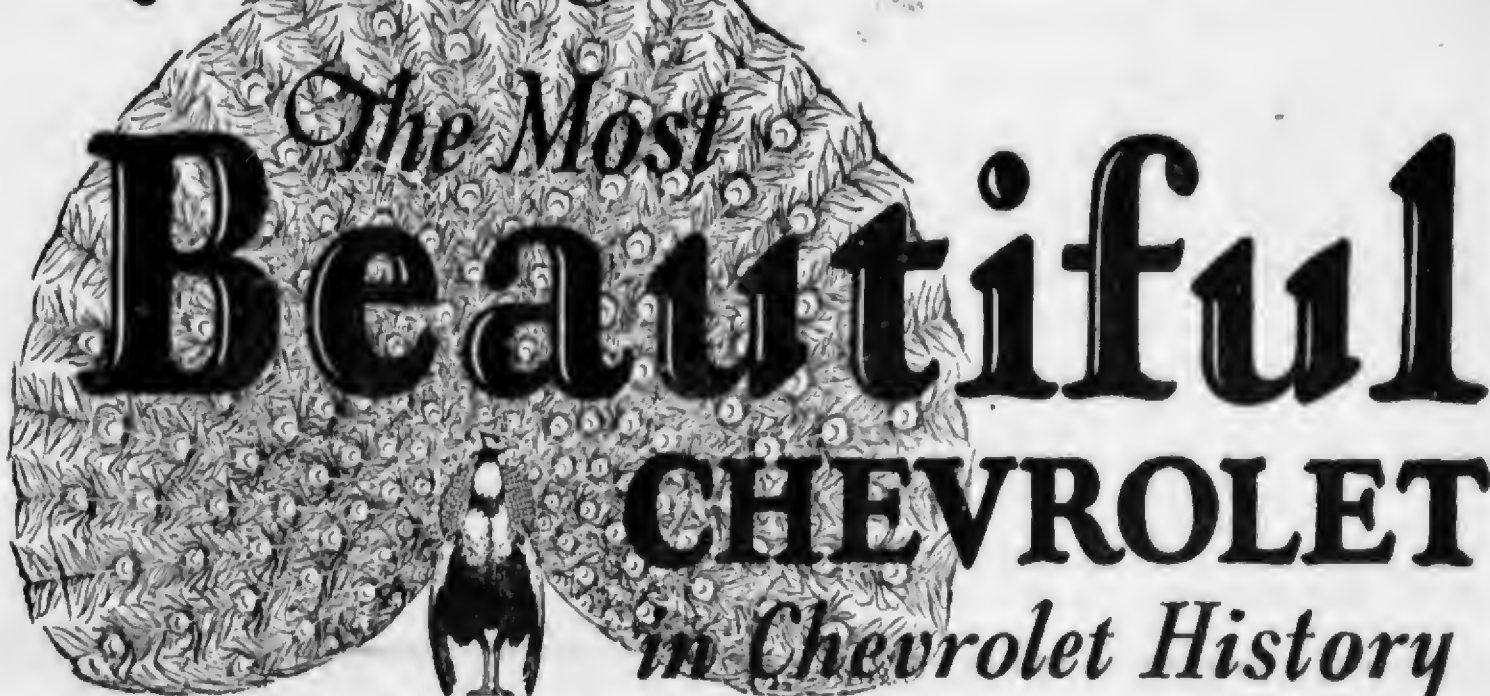

All over the United States people have been waiting for just this moment, thousands of people have put off making a decision to buy until this announcement was made.

And with this striking beauty comes added mechanical features that make Chevrolet the world's greatest automobile value.

We now have the closed models on display in our show room. Come in and let us show them to you.

Announcing—

TRULY the most beautiful Chevrolet in Chevrolet history! Truly an achievement which must immediately change all existing ideas as to what the buyer of a low priced car has a right to expect for his money!

Here is the irresistible appeal of unbroken, flowing body lines—of modish new Duco colors, fashionably striped—of notable smartness—of that flawless silhouette regularly associated with the costliest of custom-built creations.

Here are score after score of advancements in design, literally too numerous to list completely—but typified by one-piece full-crown fenders, bullet-type lamps, coincidental steering and ignition lock and large 17-inch steering wheel.

Here is definite assurance of longer life, more satisfactory operation and even greater economy—for all models are equipped with a new AC oil filter and an improved AC air cleaner!

Such features as these are usually found only on cars costing up into the thousands. They are marks of distinction on the world's finest automobiles. Yet these are now offered on The Most Beautiful Chevrolet because the spectacular growth

of Chevrolet popularity has sent Chevrolet production to tremendous volume—and only the economies of tremendous volume plus inspired engineering make possible the manufacture of so fine a car to sell at Chevrolet prices.

We urge you to come in for a personal inspection. And we ask you to come, not in the customary casual mood—but actually anticipating the revelation you would expect when the world's largest builder of gearshift automobiles announces a completely new line of cars whose truly great value is based on irresistible beauty
